

VACANCY

Position : Project Manager: International Localisation
Business unit : Hensoldt GEW
Location : Pretoria

Are you ready to lead the charge in global technology transfer? We're seeking a dynamic Localisation Manager (International Projects) to join our team and ensure the successful transfer of technology and production for large international projects. Oversee the seamless transfer of manufacturing processes, equipment, and know-how from Hensoldt GEW to our partner companies in target countries. You'll also be responsible for developing our localisation strategy and establishing viable business cases for each project. If you're passionate about international collaboration and eager to make a significant impact, we want to hear from you!

Qualifications and Ideal Experience:

- B.Eng. in Industrial or Electronic Engineering, or equivalent technical qualification.
- 5-10 years of experience in a multi-disciplinary engineering environment, focusing on product industrialization and production.
- At least 5 years of experience working with international customers on project execution.
- In-depth understanding and experience in preparing products for production.
- Excellent knowledge of the product life-cycle process and modern production processes.
- Proficient in ERP business management systems.
- Experience in the Electronic Warfare domain is advantageous.

Key Skills and Experience:

- Strong communication and interpersonal skills for effective collaboration.
- Leadership qualities: vision, integrity, resilience, and the ability to inspire and motivate teams.
- Ability to work independently and as part of a team.
- Motivated, self-starting, and driven.
- Sound project management and coordination skills.
- Strong business acumen to drive strategic growth and innovation.

Key Responsibilities:

- **Strategy Development:** Create localisation strategies aligned with business objectives, considering market-specific requirements. Generate business cases and plans.
- **Support to Marketing and Sales:** Conduct market research to understand target audience preferences and regulatory requirements. Assist in compiling bids for localisation in RFPs.
- **Production Transfer Planning:** Develop comprehensive plans and timelines for production transfer.

Interested candidates may apply by submitting their resumes via e-mail, with reference to the position in the subject line.

Applications can be sent to Cymondi Stassen at recruitment@hensoldt.net

Should you not be contacted within 14 days after the closing date, please regard your application as unsuccessful.

About HENSOLDT South Africa

HENSOLDT South Africa is a pioneer of technology and innovation in defence and security electronics. The company offers a comprehensive range of products, systems and services across defence and civil markets, from spectrum dominance, optronics and radar, to IFF, datalinks and integrated security solutions. With more than 800 South African employees across three sites in South Africa, it is the HENSOLDT Group's largest industrial base outside of Europe and one of the largest defence and security electronics companies in South Africa.

HENSOLDT South Africa focuses on diversity, equity and inclusion in our organisational strategy. We are committed to building a diverse and inclusive corporate culture to the benefit of our employees and to deliver better outcomes for our clients. In line with our commitment to employment equity and our focus on diversity in the operational environment, we welcome applications from all ethnic groups. In line with HENSOLDT's commitment to employment equity and our focus on diversity in the operational environment, preference will be given to suitable candidates from designated groups.
